Kavitha Vishwanathan
217 Tonnele Avenue, Apt 1, Jersey City, NJ 07306
(646)-431-8080 | kv668@nyu.edu

Hello Team,

I came across this job posting via LinkedIn. I did my Masters at NYU (August 31st, 2016 - graduated) and looking for full time opportunities starting October 2016. I also did my internship in a NYC based startup called 101 Edu as "Software Engineer (Backend)".

As part of my coursework/part-time job, I built several end to end web / mobile applications. Below are the description and link to a few of my projects.

Java - Design Patterns/jUnit/Gradle:
Name: Paint App
Github Link: https://github.com/KavithaVishwanathan/Paint

Mobile App:
Name - Your commute Matters
Stack - Cordova, jQuery Mobile, Flask, SQL
Github Link: https://github.com/KavithaVishwanathan/YourCommuteMatters

Rest Api - Go:
Name: MessageBox
Stack: Go, jQuery AJAX, JSON, SQLite
Github Link: https://github.com/kavithavishwanathan/MessageBox

Revamping:
site link - newcadillacdatabase.org
Stack - Bootstrap, JS, Django, MySQL, GoDaddy

I would welcome the opportunity to discuss the role in greater detail.

Thanks,
Kavitha
